NEWMAN UNIVERSITY

Newman University founded 1968; they're driven by the belief that higher education should enable us to develop new ways of understanding the world, and help make a positive impact within it. Their students become independent thinkers with ambition, empathy, and a lifelong love for learning. With approximately 2,700 students from a variety of backgrounds, Newman is becoming an increasingly popular place to study. They're a friendly community of staff and students, and our small class sizes mean that academic staff can give personal care and attention to each student.

THE EUROPEAN ACADEMY OF MANAGEMENT

The European Academy of Management (TEAM) is a UK-based professional and cross-cultural community of management scholars, entrepreneurship educators and reflective practitioners who value creation of knowledge & its application and contribute in the capacity of consultants or have the potential to act as consultants in the fields of education, skills development and managerial operations. TEAM collaborates and builds networks with a diverse range of public and private sector institutions and professional bodies in research and scholarly activities across the globe.

The major purpose of TEAM is to facilitate an open, vibrant, inclusive and supportive global forum for educators and professionals who're actively involved in generating, progressing, and disseminating knowledge through research & scholarly activities, education & training, policy formulation and reflective practice in management, entrepreneurship and cognate areas.

ANURAGAM

It is an integral part offshoot of Kalaignaan Pathipagam , established in the year 1955 by as Shri. Masilamani Ganapathy with the prime focus in uplifting the society by inculcating the knowledge on Indian culture and heritage. It has published more than 4000 titles of books and jointly organised 25 international Conferences with 13 Conferences abroad with various universities. And released more than 1000 volumes of Conference Proceedings comprising more than 4500 research papers. It has taken more than 1000 delegates to attend conferences in abroad. And invited more than 400 delegates from abroad to India.

CONFERENCE THEME

The International Conference focusing on the multi-disciplinary areas is the need of the hour to sustain in the intense global competition. Every field requires the expertise to pursue the process with the full knowledge needed to guide and govern the society effectively towards uncompromised development.

Here comes the need for grand cosmological visions of the universe to unify and integrate the discoveries of many different disciplines. It is only through the proper framework in the field of pedagogy that would provide the knowledge needed to address these inadequacies in different sectors.

It would also eventually lead us to the most profound and practical discovery of all – the infinite creative potentials of the human being in their specialized area of research.
